The back nine holes at the golf course have been closed due to work on the irrigation system. Even though this is affecting play, revenues are only slightly below expected at 42.56%.

Parks and Recreation revenues are slightly lower than expected at 46.01%, but the first half of the fiscal year is normally slower due to weather and holidays. Park revenues are seasonal and are expected to catch up once the summer months occur. The County contributes \$550,000 annually of which the City is transferring \$25,000 to the Tourism fund to help fund the JK Northway at the request of the County. The full amount of the County contribution will be reflected in the revenues as the reallocation will be reflected in the expenditures.

Contributions from the County are up-to-date through the 2nd quarter ended March 31, 2018.

Once the calculation is done, there are several different tiers with a \$150.00 per month cap.

Last fiscal year, there was a \$37,229.38 transfer from Fund 067 that did not occur in this fiscal year which indicates why the budget and revenues decreased from last fiscal year. Revenues are trending as expected at 49.85%.

III. Insurance Fund

The City is self-funded for health care and revenues for this fund come from employer and employee contributions through payroll deductions and individual payments from retirees and those on COBRA. During the budget process, determinations are made to decide if the City needs to make additional contributions based on fund balance projections. In FY 17-18, the city chose not to budget additional contributions due to the estimated ending fund balance, even though the fund is estimated to end up with a yearly budgeted deficit of \$600,000. Discussions are taking place to determine how to close the gap of continuing deficits and whether changes need to be made to plan design, health care provider and or employee contributions. The City absorbed an 8.6% increase in contributions and decided not to pass on this additional cost to employees resulting in an additional cost to the city of \$238,000.

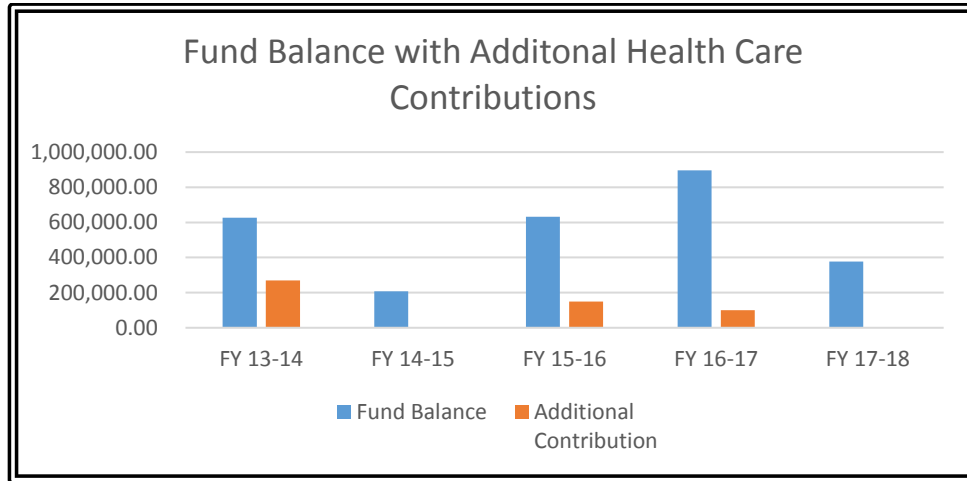

Revenues are set by the City through employer and employer contributions, so the health of the fund depends on keeping claims at levels which can be supported by current contributions. For FY 17-18, claims were estimated and budgeted at \$4,142,026. Expenditures for the 2nd quarter are trending slightly above estimates at \$2,381,761.93 or 57.50% of budget. We should be at \$2,071,013 which indicates we are running \$310,749 above budget. To offset this overage, our revenues are running above estimates at 54.98% or \$175,745 over revenue projections.

The chart below compares the revenues to the expenditures with the exception of FY 17-18 which compares the budgeted revenues to the budgeted expenditures.

The following chart depicts the audited fund balance for FY 16-17. Even though we ended up with a healthy fund balance at the end of FY 16-17 due to stop loss reimbursements of \$660 thousand, we do not budget for these reimbursements due to the uncertainty of these payments. As of March 31, 2018, we have received \$591 thousand in stop loss reimbursements, so our ending funding balance for FY 17-18 should be better than projected.

IX. Accounts Receivable

There are several categories of accounts receivable to notate and include the following:

- Property Taxes – the County Tax Assessor collects property taxes and submits payments to the City. As of the end of the second quarter, March 31, 2018, delinquent property taxes were \$668,000.28. There is a corresponding allowance for uncollectible accounts in the amount of \$272,083.85 leaving an anticipated collection of \$395,916.43. The allowance is adjusted during year end process. Linebarger is the collection agency that collects on this receivable.
- Ambulance Services – billings sent out go directly to this receivable, while collections are booked to revenue. There are large adjustments to this receivable throughout the year due to medical provider discounts. As of March 31, 2018, the receivable was \$3,736,611.41. There is a corresponding \$3,653,496.15 allowance for uncollectible accounts leaving an anticipated collection amount of \$83,115.26. We have contracted with a company to provide collection services.
- Sanitation Service – this is for garbage sales for both residential and commercial accounts. As of March 31, 2018, this receivable was \$410,249.91. There is a corresponding allowance for uncollectible accounts in the amount of \$350,087.08 leaving an anticipated collection amount of \$60,162.83. The allowance account is adjusted during year end process. These accounts have been sent to the collection services company.

Liens – these receivables come about when the City has to perform work for code enforcement violations. When the homeowner does not pay their bill, the only means to collect this obligation is to file a lien against the property. It usually stays unpaid until the property is sold and it becomes part of the property settlement. Linebarger is used for collection services. As of March 31, 2018 the following balances existed:

- | | |
|-------------------------------|--------------|
| ○ Demolition Liens | \$196,611.79 |
| ○ Paving Liens | \$1,317.80 |
| ○ Abatement of Noxious Matter | \$175,305.51 |
| ○ Weed Liens | \$469,431.84 |
- Water Accounts – this is for water service for both residential and commercial customers. As of March 31, 2018 this receivable was \$654,533.79.
 - Sewer Accounts – this is for sewer service for both residential and commercial customers. As of March 31, 2018 this receivable was \$311,358.60. There is a corresponding allowance for uncollectible accounts of \$603,790.80 for both water and sewer accounts receivable leaving an anticipated collection of \$362,101.59. The new collection services company will be used for these receivables.

XI. Interdepartmental Transfers

Resolution 2016-62 allows transfers between departments in the same fund without Commission approval as long as those transfers do not increase a department's appropriation by more than 10%. Interdepartmental transfers above 10% must be documented and provided to Commissioners on a quarterly basis through the Quarterly Budget Report. There are currently no transfers that meet this requirement.

XII. Intradepartmental Transfers

Resolution 2016-62 allows intradepartmental transfers between account codes within a department but requires transfers greater than \$5,000 to be documented and provided to Commissions on a quarterly basis through the Quarterly Budget Report. The following transfers meet this threshold:

XIII. Estimated Fund Balances

The schedule below represents the estimated Fund Balance for each fund. Now that the audit is complete, the Beginning Fund Balance is based on audited numbers. Current year fund balance is based on the beginning fund balance plus budgeted revenues, transfers in and revenue budget amendments, less budgeted expenditures, transfers out and expenditures budget amendments. If actual revenues and expenditures differ from what was budgeted, there would be either a positive or negative change to the estimated ending fund balance.

For General Fund and Utility Fund, the City established a Fund Balance Policy in 2008 and amended it by Resolution 2011-54 on September 26, 2011. It dictates that the City will maintain a minimum unassigned fund balance in its General Fund and Utility Fund of 25% of the subsequent year's budgeted expenditures and outgoing transfers. On September 25, 2017, the Commission amended the policy by Resolution 2017-67 that would allow both the General Fund and Utility Fund to be dropped to 20% for a special capital project or capital purchase. If either fund balance would drop to the 20% level, there would be a five year period to bring the fund balance back up to the 25% level.

Internal Service Fund – Insurance

The City is self-funded for employee’s health insurance. The insurance fund receives all insurance contributions from the city, current employees and retirees and then pays claims and administrative costs of the health plan from the contributions. The city provides post-retirement medical insurance benefits on behalf of its eligible retirees. Once an employee retires, it pays 50% of their medical premiums until they reach age 65. In years past, the City was contributing additional reserves to shore up the fund balance. There was no additional contribution budgeted in FY 17-18. In FY 14-15, the City decided to start charging employees a small portion of the cost of health insurance and employee costs have not increased since. In FY 17-18, the City absorbed the 8.6% increase in premium costs which totaled approximately \$230 thousand in additional costs.
