RELEASE NUMBER CB21-CN.28

## **Census Bureau to Release 2020 Census Population Counts for Apportionment**

### **News Conference to Be Held to Announce Results**

#### **What:**

The U.S. Census Bureau has completed data processing for the first 2020 Census results — state population counts used to apportion the seats in the U.S. House of Representatives among the 50 states. The Census Bureau will hold a virtual news conference to release these results on Monday, April 26, 2021. The results will include population totals for the nation and the states as well as the congressional apportionment totals for each state.

[Apportionment](#) is the process of distributing the 435 memberships, or seats, in the U.S. House of Representatives among the 50 states based on the apportionment population counts from the 2020 Census. The apportionment population consists of the resident population of the 50 states, plus the overseas military and federal civilian employees and their dependents living with them who could be allocated to a home state.

A live media Q&A session with Census Bureau subject matter experts will immediately follow the briefing for media who have RSVPed.

#### **When:**

Monday, April 26, 2021

3 p.m. EDT

#### **Who:**

- [Ron Jarmin](#), Acting Director, U.S. Census Bureau
- [Michael C. Cook, Sr.](#), Chief, Public Information Office, U.S. Census Bureau (moderator)

The Census Bureau will post the data tables and media products in the [2020 Census Apportionment Counts press kit](#) shortly after the news conference begins.

The event will be recorded and available for viewing after the event in the [2020 Census Apportionment Counts press kit](#). A transcript will also be available in the press kit.

**Access:**
