

TRAFFIC CONTROL DEVICE INSTALLATION REQUEST

INFORMATION: Complete and turn in this form to request a traffic control device be installed. You can submit the request by email, or you can call the City's Engineering Department at (361)-595-8007 to request more information. Be aware that traffic control devices are not automatically installed when requested, but each request will be evaluated.

"Requested Street Information" includes the name of the street for which a traffic control device is requested as well as the boundary streets. For example, requesting a stop sign on Kleberg Ave from 6th street to 7th street. Please do not use street block ranges.
